

Get your *free* Mobile Messenger trial

and access live financial information and email on the move with KTS MarketTerminal®

For truly efficient mobile working, KTS have combined HP's iPAQ hw6915 with T-Mobile's network for business mobility to provide you with an end-to-end mobile application service.

MarketTerminal Mobile Messenger offers easy access to essential financial information - live market data and news – and you can also monitor watchlists and set up price and news alerts. Financial data from over 15 exchanges is covered, including the London Stock Exchange, New York Stock Exchange, NASDAQ, Euronext, and Deutsche Boerse.

In combination with Direct Push email functionality available with Windows Mobile 5, MarketTerminal Mobile Messenger represents a valuable all-in-one information and communication tool for financial professionals.

- Access MarketTerminal Mobile Messenger for live financial information
- View text documents, spreadsheets and presentations using familiar Microsoft applications
- Access your emails
- Easy route finding with TomTom all-in-one GPS navigation system
- Connect to T-Mobile's high quality voice and data services through the built-in wireless connectivity
